

Lobmeyer Chandelier Restoration

Take a look at The Royal Collection chandelier video on our website:

wilkinson-plc.com/lobmeyer-chandelier

You can see glimpses of our workshop and how our staff worked to restore the Lobmeyer chandelier at the beginning of the year.

Don't forget that the chandelier is on display at The Queen's Gallery until 11th October.

Wall lights

We are always producing, purchasing or restoring stock and this month has been a particularly busy month for wall lights.

Clockwise from top left:
Osler & Faraday style with blue crystal pans and dressed with pear pendants, metalwork is gilded;
5 light hybrid Victorian crystal with elements from early C20th;
Decorative late Victorian converted gas wall lights in gold lacquer;
Georgian style cut lead crystal and gilt metal wall lights with kite and pear drops.

We are able to adapt most wall lights to your requirements, including wiring, candle, lamp holder and metalwork colour preference. We can also supply shades and bulbs if needed.

Did you know...

...Wilkinson Plc have made it to the finals of the Family Business Place, Red Ribbon awards in the category of Family Factor.

The winners are being announced on 10th July, so please keep your fingers crossed for us.
